

## Material Datasheet

BTW/VAT BE 0475 174 195

### PCTFE

PDS nr.: PDS-IM-010, edition: 14/08/2018  
Filler content: -  
Color: Semi transparent  
QC responsible: Ruben Denteneer

|  |                      |                                |
|--|----------------------|--------------------------------|
| Density  | ISO 1183 (23°C)      | 2,11 - 2,16 gr/cm <sup>3</sup> |
| <b>Moulding direction test samples (MD)</b>        |                      |                                |
| Tensile Strength                                   | IM-826 (23°C)        | 31,4 - 37,2 N/mm <sup>2</sup>  |
| Elongation @ break                                 | IM-826 (23°C)        | 50 - 200 %                     |
| Compressive strength at 1% deformation             |                      | 12 - 14 N/mm <sup>2</sup>      |
| Shore D hardness                                   |                      | D80                            |
| Min. continuous operating temperature              | -273                 | °C                             |
| Max. continuous operating temperature              | 140                  | °C                             |
| Max. operating temp.                               | 150                  | °C                             |
| Thermal expansion up to 100°C                      | 5,5                  | mm/mm.K.10 <sup>-5</sup>       |
| Water absorption                                   | ISO 62 (50%RH, 23°C) | 0,0 %                          |
| Coëfficiënt of friction at steel (Dynamic – 23°C)  | 0,30                 |                                |
| Coëfficiënt of friction at steel (Dynamic – 100°C) | 0,45                 |                                |
